BE WORK ZONE ALERT!

UPDATE: STATE ROUTE 38 PAVING PROJECT RESUMES

SAN BERNARDINO- Caltrans and All American Asphalt have resumed the paving rehabilitation project on State Route 38. The endangered Southwestern Willow Fly Catcher was nesting within the construction limits and delayed the project for five months during spring, April through September, for the past two years.

All American Asphalt is now working to complete the project before the end of October. The project is moving uphill from the passing lane to Rainbow Lane. Operations will then change direction and pave downhill to the Santa Ana River Bridge below Angeles Oaks.

Work hours are Monday through Saturday, 8:00 a.m. to 5:00 p.m., through October 24. One way traffic control will be in effect for the project duration. The location of work may vary by a small distance each day or change if affected by weather.

The rolled asphalt requires a “rest period” of one to one and a half hours. There will be no access across the asphalt during the rest period. ***Please relocate your vehicle as needed when the project is in your area.***

Motorists are advised that SR 18 will be closed between Snow Valley Mountain Resort and the Big Bear Dam (Arctic Circle) October 12 through 29 from 8:00 a.m. to 4:00 p.m.
